Environmental Engineer/Scientist

The Horsley Witten Group has an opening for an Environmental Engineer/Scientist with five to seven years of experience to support our hazardous materials site assessment and remediation projects. The position will primarily be in support of New England-based public and private sector clients but could include work in other areas of the United States. Responsibilities of the chosen candidate will include both field and office related tasks. The engineer or scientist will be based in our Sandwich, Massachusetts office. The successful candidate will demonstrate experience in environmental site assessment, remediation, and environmental due diligence.

Job requirements would include:

- A Bachelor's degree in environmental engineering or related field
- Between 5 to 7 years of professional experience
- OHSA 40-hour HAZWOPER
- Experience in ASTM Phase I Environmental Site Assessments and Transaction Screens
- Experience in the collection of environmental samples for laboratory analysis
- Experience with the Massachusetts Contingency Plan
- Experience in remediation oversight
- Strong writing skills
- Strong organization skills
- Knowledge of AutoCAD and/or GIS

Experience in manufactured gas plant assessment/remediation and a Massachusetts Wastewater Operator license is a plus.

Please email résumé and cover letter to hwinfo@horsleywitten.com
