

Drilling in Tough Terrains

Tuesday, October 5, 2021

COURSE INSTRUCTORS

Shawn Miller is the Operations Manager for Aquifer Drilling & Testing, Inc. (ADT), a subsidiary of Cascade Environmental, and has worked in the industry for more than 20 years in different roles. ADT provides a full range of environmental and geotechnical drilling services with an extensive fleet of sonic and conventional drilling rigs and specialty equipment in the northeast US.

Dustin King is a Regional Manager at Cascade Environmental. He started his career in environmental services with Prosonic in 2006 as a driller assistant. Through two company acquisitions and years of working his way up, Dustin now leads Cascade's Sacramento and Richmond, California offices' drilling operations. Like Shawn, he oversees quotes, contracts, invoices, and the management of drilling projects.

Bill Poupis is the Sr. Vice President of Environmental Drilling at Cascade Environmental and was previously the Vice President of Operations at Aquifer Drilling & Testing, Inc. (ADT), a subsidiary of Cascade Environmental. Bill holds a BS degree in Geology and has over 38 years of drilling experience and related services for oil and gas, environmental, geotechnical and geothermal applications.
