

Job Title: Civil/Remediation Engineer II

Office: Norwood, MA

GZA GeoEnvironmental, Inc. (GZA) is seeking an **Entry-Level Civil/Remediation Engineer** to support our environmental remediation practice in our Norwood, Massachusetts, office. The successful candidate will have a solid educational background with a focus on geotechnical and/or geoenvironmental studies, and must be self-motivated with a professional attitude.

As a **Remediation Engineer**, you will work in a fast-paced team of other professionals, including Project Managers and Principals. You will perform extensive fieldwork and gain experience in drilling oversight, soil/groundwater/soil vapor sampling, monitoring well installations, air monitoring, remediation/construction oversight, and operation of remedial systems. You will also prepare detailed and accurate field documentation, data analysis and reporting. GZA's close-knit culture will allow you to grow professionally. You will be mentored by seasoned professionals, who will in turn look to you to share technical knowledge and ideas. Our success relies on this collaborative environment.

Qualifications:

- Bachelor's Degree in Civil Engineering (Master's Degree a plus)
- 0-5 years of related environmental experience in the fields of site investigation, implementation of remedial alternatives, and/or design of remedial systems
- Strong attention to detail with excellent analytical capabilities
- Perform technical execution of projects under the supervision of project managers
- Ability to execute tasks and projects in accordance with our client's needs and objectives, whether working independently or in a team setting
- Strong communication skills, problem solving and organizational skills
- Working knowledge of computers and Microsoft Office suite
- 40-hour OSHA HAZWOPER and FE/EIT certification a plus
- Availability to occasionally work evenings and/or weekends, when necessary to meet project needs
- A valid driver's license in good standing
