DIRECTOR OF ENVIRONMENTAL PROJECTS

Our clients count on us to minimize their environmental liabilities, protect their people and assets, and improve their business value.

Since 1997, Green Seal Environmental has been recognized as a premier provider of environmental due diligence, compliance, site investigation, remediation, process optimization and value-driven management services. As a multi-disciplinary consultancy, we focus on the development and management of the manmade and natural environment. We primarily work for the private sector, but as a women and minority owned business, GSE also works with many local municipal and state agencies. We combine our technical capabilities with business sensibility. We focus our attention on service, client communication, and cost-effective solutions. We excel in translating environmental and facility problems directly into financial terms and bottom-line gains.

Green Seal is currently in search of a [Director of Environmental Projects](#), MA LSP, to join our team of 30 professional consultants.

THE ROLE

The [Director of Environmental Projects](#) will have the opportunity to work on exciting and engaging site investigation and remediation projects associated with state-led and federal programs in addition to supporting environmental management issues associated with regional infrastructure projects. This is a key leadership position, requiring excellent planning and communication skills as well as the ability to mentor, delegate and manage a team.

- Direct, manage and drive the current environmental services team.
- Prepare various technical project progress and quality control reports, including soil boring logs, maps & figures and well construction reports.
- Manage and oversee a variety of field samplings – soil, groundwater, soil vapor, indoor air, aquifer, etc.
- Prepare and communicate project updates to clients regarding the findings of Phase II, permitting and/or remediation projects.
- Provide support and input to management team during work plan and report preparation phases
- Account management responsibilities, including business development and marketing functions.

OUR CULTURE

GSE has a dynamic staff of professional consultants who tackle a wide variety of project work. Our team comprises Professional Civil and Environmental Engineers registered in nearly every New England state; Professional Land Surveyors, utilizing conventional survey, laser and drone technologies, in addition to a robust field team who also hold licensure as EIT's, SIT's, etc.. We have fun, we work hard and we play harder! We ensure all employees keep a healthy work life balance. We collaborate together, respect each other and moreover, we count on each other to complete some very exciting projects for our clients.

THE IDEAL CANDIDATE

The ideal candidate is a self-directed, results-oriented individual with a high level of enthusiasm, passion for the work and the following qualifications:

- BA/BS required in Engineering, Geology or similar scientific field.
- REQUIRED *Practicing Massachusetts Licensed Site Professional (LSP) *
- Experience with environmental projects with a track record that includes planning, investigation, remediation and monitoring of impaired properties under state and federal programs.

- At least 8 years of experience with site investigation/remediation, including directly related task/project management experience, with private, non-federal and municipal clients.
- Strong written and oral communication skills.

WHAT'S OFFERED IN RETURN

GSE is an industry leader, and this is reflected in how we treat our personnel, which allows us to attract and retain individuals with outstanding qualifications and industry expertise. In addition to competitive compensation packages, we offer:

- Complete Salary, which will commensurate with experience. On average, an experienced LSP could earn a range of \$100- \$135K
- Generous medical coverage for individuals and families ***(day1 coverage / no waiting period)***
- Retirement planning (401K)
- Performance-based annual discretionary bonus program
- Tuition reimbursement and career advancement
- Paid Time Off (PTO) program
- Flexible spending plans for medical expenses and dependent care
- Flexible work schedule
