

# Staff Engineer/Geologist – Southern New England

## Description of Job Opening

Join our assessment and remediation team in southern New England!

Our goal at Wilcox & Barton, Inc. is to help our team members develop into confident, versatile, and knowledgeable environmental professionals, giving them the opportunity to become respected leaders in the industry. This position is perfect for a driven engineer/geologist/scientist with 0-3 years of experience who is eager to advance into a project management role. You will perform and oversee assessment and remediation activities at diverse project sites throughout New England, integrating into project data management, report writing, and client management.

Responsibilities:

- Perform site inspections, review municipal, state, and federal records, and research environmental databases.
- Oversee subsurface investigation (soil boring advancement, monitoring well installation, test pit excavations, etc.).
- Collect environmental samples (soil, groundwater, soil vapor, air, surface water, sediment) and conduct site surveys.
- Oversee site remediation (e.g., excavation, dewatering, *in-situ* remedial additive application)
- Create supporting documents (e.g., data tables, graphs, site plans, and photographic logs)
- Perform preliminary evaluation of data and draft reports summarizing assessment and remediation activities.

Requirements:

- Bachelor's degree in environmental science, geology, engineering, or a related field.
- 1+ year of experience in the environmental consulting industry preferred but not required.
- Experience conducting and overseeing environmental assessment and remediation activities is a plus.
- Effective communication and interpersonal skills, with the ability to interact professionally with clients, contractors, colleagues, and regulatory agencies.

- Proficiency in Microsoft Office tools, including Word and Excel. Experience with AutoCAD and/or GIS software a plus.

Benefits:

- Competitive salary and benefits package.
- Outfitted remote office and personal field equipment.
- Flexibility and self-direction.
- Opportunities for professional development and career advancement.
- Collaborative and supportive work environment.

If you are interested in being considered for this position, please submit your resume and cover letter to Bill Wilcox at [wwilcox@wilcoxandbarton.com](mailto:wwilcox@wilcoxandbarton.com). In your cover letter, please highlight your relevant experience and explain why you are interested in joining our team. We look forward to reviewing your application!
