

## ACQUISITION OPPORTUNITY

A profitable hazardous waste removal service company is for sale by its owner who will retire. Seller's Industrial customers rely on it to manage hazardous waste storage, removal, processing and final disposal. Approximately 90% of Seller's customers have been with Seller for from 10 to 30 years - a testament to the viability of the owner's strategy and Seller's sterling reputation. Annual revenues range from high six to low-seven figures. Owner's draw is in low six figures. The owner is Seller's only principal employee. He devotes about 20 hours a week to the company, so there is a significant opportunity for a buyer to grow the business.
