

CONNECTICUT PRACTICE LEAD / LICENSED ENVIRONMENTAL PROFESSIONAL

O'Reilly, Talbot & Okun (OTO) is seeking a Connecticut Practice Lead / Licensed Environmental Professional (LEP) to join our environmental team.

OTO has an established 25-year history of loyal clients and is a firm small enough to offer personal service and large enough to tackle big jobs. OTO employs approximately 20 technical staff, with 10 on the Environmental Team. The LEP Practice Lead will offer technical excellence and collaborate with other managers to provide vision and direction for OTO's future. The LEP Practice Lead is a seasoned professional who thinks like an entrepreneur and lives our mission and values, while:

- Directing all aspects of project management including client interaction, technical execution, staff management, report completion, and financials;
- Mentoring and development of staff;
- Collaborating with senior LEP and Connecticut team members to transition existing Connecticut RBCR Sites to become the LEP-of-record for these Sites;
- Developing new business opportunities with support of our business development team;
- Participating in the Operations Committee to chart the present and future of the company;
- Interacting personally with Environmental Director and CEO, with potential for partnership through purchase of company stock.

OTO offers competitive compensation and benefits. This position allows for a hybrid work schedule. A well-qualified candidate may expect a salary between \$125,000 and 145,000 in addition to a negotiated sign-on bonus.

Find out more on **OTO's website** : www.oto-env.com/careers.html and please submit resume and cover letter to Lori McCarthy at mccarthy@oto-env.com and Elise Zalenski at zalenski@oto-env.com
