February 2026 Membership Meeting

Lessons Learned From MassDEP Notices of Audit Findings (NOAFs) FY2025: Downgradient Property Status, Risk Characterization, and AULs

Presenter Biographies

Jane Parkin Kullmann, PhD, DABT, LSP, Woodard & Curran

Dr. Parkin Kullmann is a Senior Technical Manager at Woodard & Curran in Andover, MA, and a Diplomat of the American Board of Toxicology (DABT). She has more than 20 years of experience in environmental consulting, environmental engineering, and human health and ecological risk assessment, and has been responsible for a number of risk assessment and Massachusetts Contingency Plan compliance projects for sites including institutions, current and former industrial properties, residential properties, and commercial properties. Dr. Parkin Kullmann has led risk assessments evaluating risk to multiple receptors from exposure to soil, sediment, surface water, soil gas, indoor air, and groundwater for multiple state and federal programs. Dr. Parkin Kullmann has a PhD in epidemiology from the University of Sydney (Australia), a Master of Science in Environmental and Water Resources Engineering from Tufts University, and a Bachelor of Arts in Chemistry and Environmental Studies from Dartmouth College.

Lawrence McTiernan, PG, LSP, Roux Associates

Mr. McTiernan is a Principal Hydrogeologist at Roux Associates, with 35 years of professional experience in environmental consulting. He holds a bachelor's degree in geology from Lafayette College and a master's degree in marine environmental sciences from the State University of New York at Stony Brook. His primary area of expertise is in the direction of environmental assessment and remediation projects at hazardous waste sites, with experience at a wide variety of Massachusetts Contingency Plan, Superfund, and RCRA sites impacted with petroleum products, chlorinated solvents, metals, and PCBs. He also provides high-level data analysis and interpretation for environmental allocation and litigation cases and has served as an expert witness on several occasions.

Timothy Snay, LSP, LEP, Sanborn, Head, and Associates

Mr. Snay is a Vice President at Sanborn, Head, and Associates, and has more than 39 years of professional experience in the environmental engineering and consulting field, bringing skill at integrating multiple disciplines to the projects he leads. He excels at collaborating with teams of environmental and engineering professionals and working with them to balance the technical, regulatory, and financial needs of a project. Mr. Snay has expertise in all aspects of environmental due diligence, expertise with respect to PCBs in building materials and environmental media and has extensive experience with private and municipal redevelopment projects where he enjoys working with a range of practitioners, regulators, attorneys, and other stakeholders to help clients revitalize their properties. Mr. Snay is a member of the American Chemical Society, LSPA, and the Environmental Business Council of New England, where he is a member of the TSCA and Emerging Contaminants Committee. He has a degree in environmental conservation, with a chemistry minor, from the University of New Hampshire.
