## **LSPA 2024 Environmental Symposium** **April 10, 2024, 8:00 AM – 12:00 PM**

### *Estimating Exposure Point Concentrations Using ProUCL*

#### **INSTRUCTOR BIOGRAPHY**

**Stephen Zemba, PhD, PE**, is a Project Director in the Burlington, Vermont office of Sanborn, Head & Associates. He has more than three decades of experience assessing health and environmental risks. He has co-taught previous LSPA courses on health risk assessment and Shortform risk assessment applications. Steve is a Professional Engineer in Massachusetts. He also teaches university-level courses on air quality management and air pollution control.

**Harrison Roakes** is a Senior Project Manager with Sanborn, Head & Associates. He has broad experience in soil and groundwater investigations, and he presents and publishes regularly on statistical analysis of environmental data and subsurface contaminant fate and transport. He holds a BS and MS in Environmental Engineering from the University of New Hampshire, and he is a licensed Environmental Engineer in Maine, New Hampshire, and Vermont.
