April 2026 Membership Meeting

Navigating Challenges of Adequately Regulated Sites Under the MCP

Presenter Biography

Michael Scherer, Senior Environmental Scientist, Tighe & Bond

Michael Scherer is a Senior Environmental Scientist with more than 25 years of experience conducting environmental site assessments and remediation projects for municipal, institutional, and private clients throughout New England. His work focuses on the assessment of emerging contaminants, including per- and polyfluoroalkyl substances (PFAS) in drinking water and groundwater.

Michael has extensive experience conducting environmental investigations and preparing technical reports and regulatory documentation in accordance with the Massachusetts Contingency Plan (MCP) and Massachusetts Solid Waste Facility Regulations. His expertise includes environmental site characterization, evaluation of contaminant migration, development of response actions to mitigate exposure risks, and implementation of long-term monitoring programs.

Outside of his consulting work, Michael serves as Chief Financial Officer of the Cool Sandy Beach Community Water System in Rutland, Massachusetts, supporting financial planning and infrastructure upgrades for a small public water supply serving more than 50 homes.
